

Below is a partial listing of artisans who accept work in Long Beach, and were licensed as of: 11-28-16.

- Please keep in mind that Long Beach Heritage is not responsible for the quality of services provided by vendors that are suggested for consideration.
- Our list is not comprehensive; some professionals prefer to work on a referral basis.
- Before hiring a professional, it is the owner's responsibility to verify the business has the appropriate licenses and insurance coverage. [California State Contractor's Board](#).
- Before commencing work, it is the owner's responsibility to obtain proper permits and sign-offs from responsible city agencies (such as the City Planning Department, Department of Building and Safety and/or the Department of Housing).
- If your property is located in a historic district or is landmarked, it is necessary to obtain a Certificate of Appropriateness from the Cultural Heritage Commission as well as building permits.
- Timely maintenance of older homes is very important in extending the life of the home and avoiding costly repairs when something has been overlooked a little too long. Having knowledge of materials and methods that were likely to have been used during a home's initial construction enables professionals to anticipate needs and reduce surprises.
